600L / Min	Point	1000
1000L / Min	Point	1500
Water Supply for Common Use	Point	500
Power Consumption Fee for Standard Booth	KW	0.30

Notes:

1. Price for lighting listed above contains the electricity connecting fee, including the charges of power supply and electricity consumption.
2. Power supply for lighting and machine should be applied for separately. And they can not be connected or fitted with each other.
3. For lighting device over 1KW, the price will be given accordingly.
4. On-site orders will be surcharged 50% of the prices.
5. Those who order temporary power supply for construction will prepare all necessary materials by themselves.
6. Exhibitor may use his own air compressor in case special gas supply is needed. But 10% of the equal item price will be charged as administration fee. In addition, fees for power supply and electricity consumption of the air compressor should be paid.
7. 24-hour electricity supply doesn't mean uninterruptible power supply because there is no UPS yet.
